

## Comments in C Language.

```
#include <stdio.h>
#include <stdlib.h>
```

```
int main() {
```

```
// prints your first and last Name
```

```
/* program to print full Name and
calculate the avg grade of a student
```

single-line  
comment

- Printing out functionality is done.

- Calculating the avg grade.

- Calculating the avg grade should be completed later on.

- Date

- Etc.

```
*/
```

```
printf("Shirin");
return 0;
```

multiline  
comment

```
}
